THE READING

From https://breakingnewsenglish.com/2611/261116-ground-stop-at-us-airports-4.html

Britain's Kate Middleton, Princess of Wales, has made a film about having cancer. It is called Heal. It follows Kate as she climbs the highest mountain in England, Scotland, and Wales within 24 hours. Money was raised for a cancer charity close to her heart. Kate hopes the film will encourage people facing illness. A royal official said: "The Princess hopes to help others navigate diagnosis, recovery and life beyond cancer."

In the documentary, Kate spoke about the emotional impact of cancer. She said she was in remission. She said cancer changes your body. She added: "There's a much, much deeper part to what a cancer diagnosis shifts in you." Kate said her hospital experience was scary. She explained that healing involved finding hope. She revealed that nature helped her recovery. She said: "I imagined nature from my hospital bed."
