THE READING

From <http://www.breakingnewsenglish.com/1606/160604-mobile-friendly-site-4.html>

Breaking News English.com is now easier to use on mobile phones and tablets. A recent upgrade means students can easily browse through news articles and activities on their mobile devices. The Internet has changed a lot since it started decades ago. It looks totally different today. Twenty years ago, web pages were just text. They took a long time to load on big computers. Today, we have movies, music, games, GPS and apps on our mobile phones.

Breaking News English used the developer markbaindesign.com to be more mobile friendly. Mark Bain has made many attractive sites for teachers and others. He summed up his thoughts on technology. He said: "Expectations about what can be done on a phone are rising every day." His work has made students happy. Saeed from Kuwait said it was easier, "to get to grips with the activities". Rosa from Bolivia said she could now study while she travels to work.
