THE ARTICLE

From <http://www.BreakingNewsEnglish.com/1709/170909-hurricane-irma.html>

A record-breaking hurricane is causing death and destruction as it passes through the Caribbean and heads towards the U.S. state of Florida. On Thursday, Hurricane Irma caused major devastation across the Caribbean islands of Barbuda, St. Martin, Anguilla and the British Virgin Islands. The Prime Minister of Barbuda, Gaston Browne, said about 95 per cent of the buildings on the island had suffered some damage. He said: "It's absolute devastation. The island is literally under water....Barbuda is barely habitable." A government official for St Martin said: "There is massive destruction. We'll concentrate our first efforts so that in the next hours, people can get access to food and drinking water."

Hurricane Irma is a category 5 storm – the strongest on the 1-5 scale of hurricanes. It is the second strongest hurricane ever to be recorded and the strongest ever recorded east of the Caribbean Sea. Irma has kept a wind speed close to 300kph for more than 24 hours. This is the longest period ever recorded. Meteorologists said Hurricane Irma was over 1,200km wide. It is likely to become a Category 4 hurricane when it makes landfall in Florida on Saturday morning. Florida officials have already ordered a mandatory evacuation of Florida Keys - the southern part of the state of Florida. Residents there are bracing themselves for winds of up to 300kph and massive and damaging storm surges.

WARM-UPS

1. HURRICANES: Students walk around the class and talk to other students about hurricanes. Change partners often and share your findings.

2. CHAT: In pairs / groups, talk about these topics or words from the article. What will the article say about them? What can you say about these words and your life?

record-breaking / hurricane / state / devastation / islands / damage / under water / storm / east / wind speed / meteorologists / landfall / evacuation / storm surges

Have a chat about the topics you liked. Change topics and partners frequently.

3. NATURAL DISASTERS: Students A **strongly** believe hurricanes are the worst natural disasters; Students B **strongly** believe they aren't. Change partners again and talk about your conversations.

4. HELPFUL THINGS: How helpful are these things in a hurricane? Complete this table with your partner(s). Change partners often and share what you wrote.

	How helpful?	Why?
Mobile phone		
Torch		
Blanket		
Tarpaulin		
Chocolate		
Radio		

5. WINDS: Spend one minute writing down all of the different words you associate with the word "winds". Share your words with your partner(s) and talk about them. Together, put the words into different categories.

6. POSSESSIONS: Rank these with your partner. Put the most important possessions to take with you in a hurricane at the top. Change partners often and share your rankings.

- mobile phone
- photographs
- clothes
- jewellery
- teddy bear
- food
- wallet
- other _____

A record-breaking hurricane is causing death and destruction as it passes through the Caribbean and heads toward the U.S. state of Florida. On Thursday, Hurricane Irma caused major devastation across the Caribbean islands of Barbuda, St. Martin, Anguilla and the British Virgin Islands. The Prime Minister of Barbuda, Gaston Browne, said about 95 percent of the buildings on the island had suffered some damage. He said: "It's absolute devastation. The island is literally underwater... Barbuda is barely habitable." A government official for St. Martin said: "There is massive destruction. We'll concentrate our first efforts so that in the next hours people can get access to food and drinking water." Hurricane Irma is a category 5 storm – the strongest on the 1-5 scale of hurricanes. It is the second strongest hurricane ever to be recorded and the strongest ever recorded east of the Caribbean Sea. Irma has kept a wind speed close to 300 kph for more than 24 hours. This is the longest period ever recorded. Meteorologists said Hurricane Irma was over 1,200 km wide. It is likely to become a Category 4 hurricane when it makes landfall in Florida on Saturday morning. Florida officials have already ordered a mandatory evacuation of Florida Keys – the southern part of the state of Florida. Residents there are bracing themselves for winds of up to 300 kph and massive and damaging storm surges.

HOMework

1. VOCABULARY EXTENSION: Choose several of the words from the text. Use a dictionary or Google's search field (or another search engine) to build up more associations / collocations of each word.

2. INTERNET: Search the Internet and find out more about this news. Share what you discover with your partner(s) in the next lesson.

3. HURRICANES: Make a poster about hurricanes. Show your work to your classmates in the next lesson. Did you all have similar things?

4. HURRICANE-PROOF: Write a magazine article about all buildings in hurricane-prone areas being built to survive in any hurricane. Include imaginary interviews with people who are for and against this.

Read what you wrote to your classmates in the next lesson. Write down any new words and expressions you hear from your partner(s).

5. WHAT HAPPENED NEXT? Write a newspaper article about the next stage in this news story. Read what you wrote to your classmates in the next lesson. Give each other feedback on your articles.

6. LETTER: Write a letter to an expert on hurricanes. Ask him/her three questions about them. Give him/her three of your ideas on how to better prepare for a hurricane. Read your letter to your partner(s) in your next lesson. Your partner(s) will answer your questions.
