# THE ARTICLE

From <https://breakingnewsenglish.com/1906/190608-5g-network.html>

The Chinese technology company Huawei will set up Russia's 5G communications network. A deal was signed between the two countries on Wednesday following a meeting between Chinese leader Xi Jinping and Russian president Vladimir Putin in Moscow. Huawei will develop the very latest next-generation 5G network in Russia over the next year. Reporters say the deal will see, "the development of 5G technologies and the pilot launch of fifth generation networks in 2019 and 2020". This will bring cutting-edge technology and high-speed Internet to Russia. Huawei's chairman Guo Ping said he was "very happy" with the agreement "in an area of strategic importance like 5G".

The Huawei deal with Russia comes as a relief for the tech company, which has had a turbulent time in recent months. The USA has blocked the company, citing it as a national security risk. This resulted in Google denying key services to Huawei phones. Huawei gets half of the chips it uses from US suppliers. Some journalists say the US banning of Huawei could be the beginning of the biggest trade war ever. In addition, the UK-based technology company ARM has cut ties with Huawei. ARM was a key supplier of semi-conductors for Huawei's phones. Australia, Japan and New Zealand have followed suit in banning Huawei from participating in government contracts due to security concerns.

# WARM-UPS

**1. INTERNET NETWORKS:** Students walk around the class and talk to other students about Internet networks. Change partners often and share your findings.

**2. CHAT:** In pairs / groups, talk about these topics or words from the article. What will the article say about them? What can you say about these words and your life?

technology / communications / network / meeting / pilot / cutting-edge / agreement / deal / security / risk / journalists / trade war / semi-conductors / contracts / concerns

Have a chat about the topics you liked. Change topics and partners frequently.

**3. SECURITY:** Students A **strongly** believe every country should develop its own communications network to protect its security; Students B **strongly** believe this is not doable. Change partners again and talk about your conversations.

**4. 5G ISSUES:** What do you know about these 5G issues? How serious are they? How can they be resolved? Complete this table with your partner(s). Change partners often and share what you wrote.

	What You Know	How Serious	Resolutions
National security			
Industrial espionage			
Insecure wi-fi			
Health problems			
Environmental costs			
High setup costs			

**5. MEETING:** Spend one minute writing down all of the different words you associate with the word "meeting". Share your words with your partner(s) and talk about them. Together, put the words into different categories.

**6. CUTTING-EDGE TECHNOLOGY:** Rank these with your partner. Put the best cutting-edge technology at the top. Change partners often and share your rankings.

- Augmented Reality
- Holograms
- Internet of Things
- Driverless cars
- Drone taxis
- Robot chefs
- Space travel

The Chinese technology company Huawei will set up Russia's 5G communications network. A deal was signed between the two countries on Wednesday following a meeting between Chinese leader Xi Jinping and Russian president Vladimir Putin in Moscow. Huawei will develop the very latest next-generation 5G network in Russia over the next year. Reporters say the deal will see, "the development of 5G technologies and the pilot launch of fifth generation networks in 2019 and 2020". This will bring cutting-edge technology and high-speed Internet to Russia. Huawei's chairman Guo Ping said he was "very happy" with the agreement "in an area of strategic importance like 5G". The Huawei deal with Russia comes as a relief for the tech company, which has had a turbulent time in recent months. The USA has blocked the company, citing it as a national security risk. This resulted in Google denying key services to Huawei phones. Huawei gets half of the chips it uses from US suppliers. Some journalists say the US ban on Huawei could be the beginning of the biggest trade war ever. In addition, the UK-based technology company ARM has cut ties with Huawei. ARM was a key supplier of semi-conductors for Huawei's phones. Australia, Japan and New Zealand have followed suit in banning Huawei from participating in government contracts due to security concerns.
