THE ARTICLE

From <https://breakingnewsenglish.com/2203/220317-cruise-ship.html>

The largest cruise ship ever made has set sail. The ship is 362 metres long, has 18 decks, and has room for 6,988 guests. Its name is Wonder of the Seas. It is the newest addition to the ships owned by the company Royal Caribbean. It set off on its maiden voyage last week from Fort Lauderdale in Florida, USA. The lucky passengers will enjoy a cruise of the Caribbean islands. A company official spoke about his excitement to CNN Travel. He said: "We're excited to introduce guests across the world to Wonder of the Seas and its world-class features after a six-year-long process." He said the company's expertise and feedback from guests meant the company could "create something truly awe-inspiring".

It took a shipyard in France three years to build the enormous ship. It is an impressive vessel. It weighs 237,000 tons, and is as long as the Empire State Building is high. It is 30 metres longer than the longest aircraft carrier ever built and 306 metres* longer than the Titanic. Surprisingly, the Titanic was 1.8kph faster. The new cruise ship has eight different "neighbourhoods". These are areas of the ship that will give guests different experiences. One is called Central Park, which is filled with over 10,000 real plants. Facilities include 20 restaurants, four swimming pools, a children's water park, a full-size basketball court, an ice-skating rink, a surf simulator, a 1400-seat theatre, and two 13-metre rock-climbing walls.

* Error: This should be 93 meters.

The largest cruise ship ever made has set sail. The ship is 362 metres long, has 18 decks, and has room for 6,988 guests. Its name is Wonder of the Seas. It is the newest addition to the ships owned by the company Royal Caribbean. It set off on its maiden voyage last week from Fort Lauderdale in Florida, USA. The lucky passengers will enjoy a cruise of the Caribbean islands. A company official spoke about this excitement to CNN Travel. He said: "We're excited to introduce guests across the world to Wonder of the Seas and its world-class features after a six-year-long process." He said the company's expertise and feedback from guests meant the company could "create something truly awe-inspiring". It took a shipyard in France three years to build the enormous ship. It is an impressive vessel. It weighs 237,000 tons, and is as long as the Empire State Building is high. It is 30 metres longer than the longest aircraft carrier ever built and 306 metres longer than the Titanic. Surprisingly, the Titanic was 1.8 kph faster. The new cruise ship has eight different "neighbourhoods". These are areas of the ship that will give guests different experiences. One is called Central Park, which is filled with over 10,000 real plants. Facilities include 20 restaurants, four swimming pools, a children's water park, a full-size basketball court, an ice-skating rink, a surf simulator, a 1400-seat theatre, and two 13-metre rock-climbing walls.

A one-year cruise is better than a two-week cruise. Discuss.

HOMEWORK

1. VOCABULARY EXTENSION: Choose several of the words from the text. Use a dictionary or Google's search field (or another search engine) to build up more associations / collocations of each word.

2. INTERNET: Search the Internet and find out more about this news story. Share what you discover with your partner(s) in the next lesson.

3. CRUISE SHIPS: Make a poster about cruise ships. Show your work to your classmates in the next lesson. Did you all have similar things?

4. ECO-CRUISES: Write a magazine article about only allowing eco-cruises - ones where the ship emits zero emissions. Include imaginary interviews with people who are for and against this.

Read what you wrote to your classmates in the next lesson. Write down any new words and expressions you hear from your partner(s).

5. WHAT HAPPENED NEXT? Write a newspaper article about the next stage in this news story. Read what you wrote to your classmates in the next lesson. Give each other feedback on your articles.

6. LETTER: Write a letter to an expert on cruise ships. Ask him/her three questions about them. Give him/her three of your ideas on how to make them fun. Read your letter to your partner(s) in your next lesson. Your partner(s) will answer your questions.
