THE READING

From <https://breakingnewsenglish.com/2605/260528-ferrari-luce-electric-car-0.html>

Ferrari has its first electric car. It is called Luce. This means "light" in Italian. The car is Ferrari's first five-seater. It is not cheap. It costs \$640,000. Ferrari said many great technology partners helped to make the car. It added that the Luce has great performance. It will give pleasure to Ferrari drivers today and in the future.

The Luce was co-designed by the Apple iPhone designer. Many reviewers said the car looks like an "Apple car". However, it has Ferrari's power and speed. It can go from 0-100 kph in 2.5 seconds. It has a top speed of over 310 kph. It can go over 500 kilometres between charges. Ferrari said the Luce was "absolutely stunning".
